January 1, 2016

Dear Prospective Exhibitor,

The Intertribal Timber Council (ITC) and the Coquille Indian Tribe are proud to present the 40th Annual National Indian Timber Symposium, April 4-7, 2016, at the Apache Gold Casino and Resort in San Carlos, AZ. As part of our annual symposium, we offer a limited number of exhibit spaces on a first-come, first-served basis. We encourage you to take advantage of this opportunity to promote your business or organization to representatives from timbered Indian reservations.

You can participate in the symposium in two ways:

1. Rent an exhibit booth. (Booth fee is \$550.00)
2. Have your company's literature inserted in the registration packets given to each participant. (Literature fee is \$500.00)

All booth fees support our Truman D. Picard Scholarship Program. These scholarships provide assistance to Native American and Native Alaskan students who are majoring in forestry or natural resources. ITC is a 501(c)(3) tax-exempt charitable organization.

The Intertribal Timber Council represents member tribes from throughout the United States. Each year the ITC develops a national symposium to bring together tribes, federal land management agencies, private industry, legislative bodies, and academia to learn about and evaluate current forestry management practices. Approximately 330 participants attend our symposiums from around the United States and Canada.

Included is the information you will need to as an exhibitor, as well as an overview of the ITC. We hope that you will take advantage of this opportunity to promote your organization and meet the symposium participants. Simply register online at our symposium website at <http://www.regonline.com/ITCSymposium2016>, and please complete separate registrations if you have a second staff member or any additional staff.

After you finish your registration, you will receive a confirmation email containing the Space Request & Directory Form. Please complete both pages of the form and return it to the ITC by email, fax, or mail. Call our Program Manager, Laura Alvidrez, at 503-282-4296, if you have any questions about this information or the symposium. Additional symposium information is also available on the ITC website http://www.itcnet.org/issues_projects/projects_2/symposium.html.

Sincerely,

Phil Rigdon, ITC President

INTERTRIBAL TIMBER COUNCIL

Native people are becoming increasingly involved in the management of their timber resources. The Intertribal Timber Council was established in 1976 to provide a forum for communicating between tribes and the Bureau of Indian Affairs (BIA) on matters relevant to the pursuit and development of timber resources for the benefit of Indian people.

PURPOSE

The primary purposes of the Intertribal Timber Council are:

1. Promoting sound economic management of natural resources so as to sustain Indian forests and dependent economies in accordance with tribal goals and objectives.
2. Providing information concerning legislative and federal policies affecting management of Indian forest resources.
3. Facilitating communication among members on matters relevant to the management of Indian forest resources. The Intertribal Timber Council distributes a newsletter (nationally) to tribes, BIA, and other interested people.
4. Advising and working with BIA and other interested entities to develop the full potential benefits attainable to Indian people from the management of their forest resources in a manner that achieves a harmony between the needs of people, plants, soil, water, and wildlife.
5. Assisting the establishment and development of Indian business enterprises that will utilize forest resources.
6. Encouraging the training and development of Native American professionals engaged in management of Indian natural resources.

The Intertribal Timber Council has for the past 40 years coordinated and conducted an Annual National Indian Timber Symposium. The symposium is designed to facilitate communication from the perspective of tribes, the BIA, private industry, legislative bodies, and academia on issues and concerns of current forestry management practices.

The San Carlos Apache Tribe will host the 40th Annual National Indian Timber Symposium, April 4-7, 2016, in San Carlos, AZ. The 41st Annual National Indian Timber Symposium will be hosted by the Yakama Nation, May 15-18, 2017, in Toppenish, WA.

Symposium participants produce findings and recommendations, which are submitted to the Assistant Secretary of the Interior and other federal agencies for follow-up. This procedure gives the Intertribal Timber Council and the BIA a foundation to analyze the progress occurring to resolve the issues being confronted. Published final proceedings of the symposium serve as comprehensive documentation and are mailed to each participant.

The Bureau, after receiving and reviewing the findings and recommendations, schedules follow-up meetings with the Intertribal Timber Council Executive Board to discuss the responses of the administration.

INTERTRIBAL TIMBER COUNCIL MEMBERSHIP

General Membership in the Intertribal Timber Council is open to any Indian tribe or Native Alaskan Corporation with a demonstrable interest in the management of Indian forest resources. Presently there are 56 General Member tribes, located from Maine to Alaska to New Mexico.

Associate Membership is open to any person or organization supporting the purposes of the Intertribal Timber Council. The Executive Board shall approve or disapprove the application. Presently there are 13 associate members.

EXECUTIVE BOARD OF DIRECTORS

The Intertribal Timber Council operates under the direction of the Executive Board, consisting of eleven tribes. The Board of Directors is elected by member tribe representatives at the annual general meeting held during the annual symposium. The Executive Board then elects from its membership a President, Vice President, Secretary and Treasurer. Each board member serves a two-year term.
